Police Make Vigorous Use of Their Clubs to Clear Mobs Off the Tracks-Cine to the Englid Avenue Dynamiters Discovered.

CLEVELAND, O., July 24.-The day has failed to bring any relief to the strike sitnation, which is regarded as serious. The at the same time, the company develops state board of arbitration has practically abandoned its efforts to conciliate the strikers and their former employers.

The resentment of the conductors and motormen who quit work and the more turbulent spirit of their sympathizers is held in check to a degree by the presence ride in the cars or are held in readiness at the barns and terminals.

Small riots occurred during the day, but, weit, slain by a bullet fired by Ralph P. Hawley, a conductor on the Broadway line, 15-year-old son of a butcher, was astride Company, room 18, Masonic building, 912 a horse and rode at the side of the car, Walnut st., Kansas City, Mo. keeping pace with it for some distance. Various stories are told as to what passed between the conductor and the boy, but

the mob was suddenly called to its senses by the sight of Hawley, who jumped to the street and started in pursuit of Cornwell. The latter, closely followed by his pursuer, turned up Perry street. At Woodland avenue the latter pulled his revolver and fired. His victim fell, fatally wounded, with a ghastly wound in the left temple. and died soon after being removed to the

hospital. The crowd, which before the incident had been so violent, was awed by the serious-ness of the affair, and permitted the conductor to walk back to his car. He was arrested and taken to the station, where a charge of murder was entered against him. When the car returned in charge of another man and laden with police, thousands of people were crowded around the

another man and laden with police, thousands of people were crowded around the fatal spot. The track was blockaded and the stalled cars bombarded with stones, pleces of brick and sticks of wood. The police managed, by dint of using their clubs, to clear the way after a delay of about half an hour.

The police believe they have a clue to the man who placed nitro-glycerine which last night biew up an Euclid avenue car and injured four passengers. Mathew Robison, who was seen at 2 o'clock this morning driving a horse and buggy said to resemble the one in which the mysterious wrecker rode, has been placed in a cell, Robison claims to have found the rig, masterless, and took possession, intending to deliver it to Charles Steimetz, a liveryman by whom Robison is employed. Mr. Steimetz informed the officers that he rented the outfit last night to a man whom he identified vaguely as having a dark moustache. With the exception of the Mayfield suburban, all the lines of the Big Consolidated have been in operation to-day, although their movements were necessarily hampered somewhat.

The adjutant general this evening informed Mayor Farley that the militia companies at Youngstown, Geneva, Berea, Warren and Norwalk, towns near this city, had been officially notified to hold themselves in readiness to answer the call of the mayor should the situation get beyond the control of the present force. The various companies of the Fourth, Sixth and Eighth regiments, to the number of 800 men, have also been ordered to prepare for a sudden summons.

Rioting broke out afresh here to-night, and a second attempt to wreck a car was

and a second attempt to wreck a car was made. A Pearl street car, speeding south near Holmden avenue, carrying beside the motorman and conductor, a guard, suc-cessfully ran a gauntlet of missiles thrown from the roofs of houses only to run into a can of nitro-glycerine which exploded with terrific force. The rear platform was tern off and the flooring wrenched from its fastenings. The crew was not injured, but cmerged from the shattered ruin with their pistois drawn, and began firing at what they thought was a couple of men crouch-ing as if to hide themselves behind a small billboard. The explosion was the signal for renewing the attack from the house-

for renewing the attack from the house-tops and alieys.

Troop A hurrying on horseback to the scene was bombarded with giant fire-crackers. One of these exploded with such force that the mount of one of the troopers was knocked over, in his fall carrying with him two other horses and their riders. Several arrests were made. Pistol shots were frequently heard and one man was slightly wounded in the arm, it is said. Up slightly wounded in the arm, it is said. Up to a late hour reports more or less vigue of blockades and shooting floated about town, but failed of confirmation.

Strikers and their friends held a mass meeting in Newburg, a suburb of Cleveland, to-night, during which the men were urged to presevere in their fight against the Big Consolidated.

ALLEGED DYNAMITERS FREE. Twenty-one Brooklyn Strikers Discharged for Want of Evidence

Against Them. NEW YORK, July 24.-Police Magistrate Jacob Brenner, of Brooklyn, to-day discharged from custody the twenty-one men arrested for the alleged dynamite scheme to blow up the Elevated railroad structure at Fifth avenue and Thirty-sixth street,

Assistant Attorney Kellogg agreed with Isaac M. Kapper, counsel for the prisoners, that the witnesses for the prosecution should retire to a side room, and then asked that Mr. Kapper's witnesses be exasked that Mr. Kapper's witnesses be excluded also. Mr. Kapper replied that he would put only the defendants on the stand and their right to remain was maintained by the magistrate. A number of police officers testified to facts in connection with the arrest of the men. William Ashby, employed by the Brooklyn Rapid Transit to secure information regarding the strikers, lestified. It was Mr. Ashby who swore out warrants against the strikers, ashby repeated his story about a man arising at the meeting and declaring that if the "L" employes did not join the strikers "we will blow them all to hell with dynamite," with subsequent cries of "we will, we will."

Ashby then testified as follows:

we will."
Ashby then testified as follows:
"I sat in the rear of the meeting hall. I heard the strikers talking about the "L" roads. After the declaration about dynamite, men who had been eyeing me asked me if I was one of them. I said that I was an employe of the Crosstown line. They seemed suspicious of me, and I went out

last Friday.

In January last, there was a conference at which it was agreed to submit the rate of machine mining to arbitration. Each side selected three men, but since then the operators have been unable to induce the miners' representatives to meet and arrange the matter. The operators are determined that, if some action is not taken at once, the question will be submitted to the state board of arbitration and may result in a strike in the near future.

the streets were literally packed with excited natives discussing the decisions of astrologers and 'mutanges' that the electric railway and power house were the real causes of the drouth and the suffering among the poor. With the death of the child the noisy excitement gave way to wild, unrestrained fury, and the howling men went direct to a house on Rockaway avenue.

The man with the packages did not have them with him when he came out. "His name is O'Hara."

In an attempt to pick out the O'Hara referred to from among the spectators in the courtroom, witness picked out one O'Hara, but on a second attempt he picked onto the O'Hara who is said to have been miles away when the explosion occurred. Instructed by the court to pick out the other prisoners, he selected thirteen men, seven of whom were not under arrest at all. The police produced a piece of gas pipe and some telephone wire found in the hall. A pair of cheap pilers were also exhibited as having been taken from O'Hara. It was admitted by the police that thirteen of the twenty-one men were arrested outside of the hall.

Mr. Kapper demanded immedate dismissal for his clients, on the ground that no evidence had been given to show their connection with any conspiracy. The decision of the court was followed by rounds of cheers, mingled with cat calls for the company. It was stated afterward that Mr. Kapper had been authorized by several of the men to begin suit for false imprisonment.

BAINBRIDGE, GA., July 24.-There will be a double lynching in West Bainbridge early to-morrow morning unless something unforescen occurs. Two more members of the band of negroes implicated in Sammin's confession are in the hands of a deter-mined posse of whites. One of the cap-

crime of Louis Sammin, who was lynched yesterday. It was Sammin and Mack who outraged Mrs. Ogletree in the presence of her husband at Saffold, one holding a pistol at the head of the husband to prevent his interference.

Mack was captured at Iron City by a white man named Cardell. He tried to get his prisoner through to jail and secreted him. A mob of several hundred country people met Cardell and asked the whereabouts of his prisoner. He declined to tell them. A rope was quickly put about his neck and he was allowed ten minutes in which to give up the negro. He then told where the negro was.

In a short while the crowd had Mack. While arrangements for the lynching were in progress, a telegram came from Iron City that another member of the gang had been captured. As it would require several hours to get the new prisoner to the scene it was determined to postpone the execution of Mack until to-morrow, at which time it is proposed to have a double hangling.

Before Sammin was lynched, he con-

A Cure for Cholern Infantum. Never Known to Fail.

During last May an infant child of our neighbor's was suffering from cholera in fantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I fall sure it would do good if used according to directions. In two days' time the child had First amateur yachtsman—"Have you fully recovered. The child is now vigorous taken the sun yet?"
Second amateur yachtsman—"No: it's so hot now that I thought I would wait till to-night."
